PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building scalable, responsive, and high-performance web applications using React.js, Next.js, TypeScript, and Redux. Experienced in REST API integration, reusable component architecture, and performance optimization. Skilled in converting Figma designs into production-ready applications with a strong focus on clean UI, responsive design, and user experience.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Redux / Redux Toolkit, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap

UI/UX & Design: Figma, Adobe Photoshop

Tools & Platforms: Git, GitHub, VS Code, Postman

Other Skills: REST API Integration, Responsive Design, Performance Optimization, Lazy Loading, Code Splitting, Reusable Component Architecture, Cross-Browser Compatibility, Agile Methodology

PROFESSIONAL EXPERIENCE

Frontend Developer

Antier Solutions, Mohali

Frontend Developer (2025 – Present)

- Developed scalable web applications using React.js, Next.js, and TypeScript
- Integrated REST APIs, managed Redux state, and optimized performance using lazy loading and code splitting
- Collaborated with backend teams and built reusable frontend architecture

Web Designer & Developer (2024)

- Built responsive UI using HTML, CSS, SCSS, Bootstrap, and JavaScript
- Developed pixel-perfect interfaces from Figma designs and added GSAP animations
- Improved website responsiveness and UI consistency

Frontend Developer Intern (2023)

- Worked on responsive web interfaces and converted Figma designs into layouts using HTML, CSS, and JavaScript

- Assisted senior developers in frontend development and learned reusable component architecture and API integration

PROJECTS

LAND BITT – Real Estate Platform

Tech Stack: React.js, TypeScript, Redux, REST APIs

- Developed scalable frontend architecture using React.js and Next.js
- Integrated APIs for property listings, authentication, and transactions
- Improved application performance and load speed
- Ensured responsive UI and cross-browser compatibility

STBL – Stablecoin Trading Platform

Tech Stack: React.js, TypeScript, Redux, REST APIs

- Developed responsive trading platform with reusable UI components
- Managed state efficiently using Redux
- Built scalable and performance-optimized frontend architecture

SWAP GALA – Token Swap Platform

Tech Stack: Next.js, TypeScript, Redux, REST APIs

- Developed token swap interface with responsive UI
- Implemented light/dark theme functionality using Redux
- Improved frontend performance and loading speed
- Built reusable and scalable components

CRYPTA – Trading Platform

Tech Stack: React.js, TypeScript, Redux, REST APIs

- Developed responsive trading platform using React.js
- Converted Figma designs into production-ready UI
- Integrated APIs for real-time market data
- Optimized rendering performance and reusable components

EDUCATION

Bachelor's Degree

Universal College, Punjab
